

ARLYN SERIES 3200 PLATFORM SCALES

THE ONLY ALL-ELECTRONIC PLATFORM SCALE WITH ALL THE ADVANTAGES OF DIGITAL AT THE PRICE OF MECHANICAL!

Portable mechanical beam scales have been providing service for years. But they're difficult to read, need regular service because the moving parts wear out, and aren't all that accurate. Digital scales would be the answer, but they have been too expensive.

But now, Arlyn offers the Series 3200, all electronic, Digital Platform Scale. There are no moving parts to wear out, and the large digital display eliminates errors. All ARLYN electronic scales are shipped to you direct from the factory, and require none of the dealer services typically required on other digital scales. So instead of paying for a scale and a dealer, you pay only for the scale you need and nothing more. Which is why we've added just one inexpensive feature to the ARLYN Series 3200 Platform Scales - the low price.

Optional Platform sizes up to 36" x 36"

EXPENSIVE SCALE FEATURES
