

ARLYN SERIES 3250 DRUM SCALES

LOW PROFILE - EASY TO ROLL ON!
LOW MAINTENANCE - EASY TO USE!
LOW PRICE - EASY TO BUY!

Tough, dependable low profile barrel and drum scales withstand the heavy use of rolling drums up the built-in ramps and onto the scale platform. Just 1 1/2" high, loading and unloading becomes much easier.

Most scales of this style require higher "side rails" which restrict the size of the load. This "rail-less" design offers a large 35" x 42" active weighing area. And it can double as a pallet scale, as the load can overhang the sides. The 325M has a capacity of 1,000 lb. with a readability of 0.2 lb. Or you can choose the 325D with a capacity of 500 lb. X0.1 lb.

If ramps are not needed, Model 320M and 320D scales offer a 20" x 27" with many of the same features, but at a still lower cost.

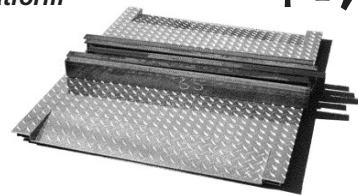

ARLYN SCALE provides a unique concept in electronic weighing equipment. VALUE! All scales are shipped to you direct from the factory, and require none of the dealer services typically required on other digital scales. If you're not exactly sure of what you need, give our highly trained sales staff a call at **800-645-4301**.

They'll be sure to help!
